

Will Kruger

Singer/Songwriter

Will's music is universally appealing. People cannot help tapping their feet and smiling. Part of that is due to Will's very amicable personality. His enthusiasm for the music is contagious and he provides the perfect mix of background information amongst the songs. Will also has a great sense of humor and keeps the audience smiling all evening long. Sincerely,

Will Kruger was an ideal music maker for our recent prairie anniversary celebration. Will's mellow sounds were just right to carry across our small enclosed exhibit area but still be strong enough to lilt over the prairie for the visitors there, too. His program of heart-warming songs of nature and family and the love of outdoors and the Creator gave us a profound sense of serenity as we all listen enthralled whether in a chair in front of him or out on the prairie.
